## HOOSIER

Kitchen Cabinet  
Gold Medal  
Sale

The Famous Hinge Door  
"Hoosier Beauty"

Another big gathering of home folks today to see the new Hoosier Kitchen Cabinets demonstrated as thousands of people saw them at the Panama-Pacific Exposition in San Francisco where Hoosier won the Gold Medal. Bring your friends and neighbors tomorrow, as many ladies did yesterday. See how a million modern housewives do their kitchen work in half the time it takes most women. See the many exclusive features that have made the Hoosier outsell any other five makes of kitchen cabinets combined.

### No Other Cabinet Has These Points of Superiority

1. See the Shaker Flour sifter. Sifts flour three times as fast as rotary sifters. Makes it fluffy and light. Can't wear out. Avoids grit or broken wire.

2. See the Revolving Spice Castor. It puts the spices

you need at your finger tips. No danger of knocking over any or spilling them.

3. See the Hoosier Double-Acting Sugar Bin. Holds three times the sugar most bins contain. So you can buy in eco-

nomical quantities. The only sugar bin from which it is easy to take sugar out of top or bottom.

4. See the Full View Roll Doors, exposed to view, sanitary, cleanable, instantly removable.

### See the 40 Ways that Hoosier Saves You Labor

How it saves you miles of walking to and fro about your kitchen to collect and put away supplies each meal. How it lets you sit down comfortably at your work with 400 articles all handily arranged at your fingers' ends. How it leaves your kitchen tidy and gives you hours of freedom for other things.

See the new models—the low prices and the easy terms we are offering on every Hoosier cabinet in this sale.

You will learn more about the modern ways of house-keeping in ten minutes than you could learn by reading the magazines for a year. Don't miss this big treat that so many people saw at the San Francisco fair. Come to-morrow without fail.

One has measures of six and seven and one-half inches, while the larger egg had dimensions of seven and seven-eighths and six and one-fourth inches. Bigger eggs have been produced right in South Barre, it is said, but it is seldom the lot of a Leghorn fancier to find a pair of eggs whose smallest dimension is six inches.
